

Early Childhood Intervention Individualized Family Service Plan Information

Early Childhood Intervention (ECI) provides evaluations, at no cost to families, to determine eligibility and the need for services. Families and professionals work together as a team to plan appropriate services based on the unique strengths and needs of the child and family. Services are provided in the home and in community settings such as child care facilities, play groups and Mothers' Day Out programs. Once eligibility is determined, an interdisciplinary team, which includes the family, develops an individualized family service plan. The services in the plan are provided in a location chosen by the family.

When submitting an Individualized Family Service Plan (IFSP) for ECI, providers should forward a copy of the member's IFSP to Superior HealthPlan through email or mail:
