Private Duty Nursing (PDN): Authorization Requirement Checklist

SUBMISSION

✔ Completed Prior Authorization Form
  www.SuperiorHealthPlan.com/providers/resources.html

✔ Submitted to Superior HealthPlan by fax 1-800-690-6090 or through the Secure Provider Portal
  www.Provider.SuperiorHealthPlan.com

GENERAL CRITERIA

To be eligible for PDN services, a member must:

✔ Be under 21 years of age.

✔ Meet medical necessity criteria for PDN.

✔ Have a primary provider who:

  o Provides a prescription for PDN that is less than 90 days old, indicating the number of hours per day or week and the duration of the request.
    ▪ A valid verbal order may be accepted in place of a signed physical order. Verbal orders must be separate from the Plan of Care (POC). Verbal orders must be signed/dated by an RN, specify who was spoken to at the referring provider’s office, service to be provided, dates of service, time contact took place, duration and frequency.

  o Establishes the proposed POC.

  o Provides documentation to support the medical necessity of PDN services.

  o Provides continuing medical care and supervision of the member, including but not limited to:
    ▪ Examination or treatment within 30 days (initial requests for PDN services).
    ▪ Treatment that complies with the Texas Health Steps periodicity schedule, or is within three (3) months of the PDN extension Start of Care (SOC) date, whichever is more frequent (for extensions of PDN services).

✔ Requires care beyond the level of services provided under a Home-Health Skilled Nurse Care.
MEDICAL NECESSITY CRITERIA

Initial Authorizations
PDN is considered medically necessary when the member meets all the following criteria:

✓ Meets all general criteria; and
✓ Placement of nurse in home is done to meet the medically necessary skilled needs of the member only and not for the convenience of the family or caregiver.

And at least one of the following:

✓ Member is dependent on technology to sustain life;
✓ Requires ongoing and frequent skilled interventions to maintain or improve health status; or
✓ Delaying skilled intervention directly impacts the health status of the client, due to the risk of sudden decompensation in the absence of direct ongoing nursing care (not observation).

Continued Authorizations
Ongoing PDN care is considered medically necessary if all of the initial authorization and general criteria are met.

Notes:
1. Members under 17 years of age must reside with a responsible adult who is either trained to provide nursing care, or is capable of initiating an identified contingency plan when the scheduled PDN is unexpectedly unavailable.

2. PDN cannot be considered for the primary purpose of providing respite care, childcare, or Activities of Daily Life (ADL) for the member, housekeeping services, or comprehensive case management beyond the service coordination required by the Texas Nursing Practice Act.

3. Members whose only skilled nursing need is the provision of education for self-administration of prescribed subcutaneous (SQ), intramuscular (IM), or intravenous (IV) injections will not qualify for PDN services. Nursing hours for the sole purpose of providing education to the client and caregiver may be considered through intermittent home-health skilled nursing visits.
