

Diabetic Meter Program

Effective January 30, 2017, Superior HealthPlan launched the Preferred Diabetic Meter Program for Medicaid and CHIP programs. Superior's preferred brand of blood glucose meter and test strips is TRUE METRIX.

In order for members to receive the preferred blood glucose meter, providers will need to write a prescription for a TRUE METRIX Air or TRUE METRIX Meter. Prescribers will also need to ensure the member takes the prescription and the processing information (in the table below) to a drug store or pharmacy in Superior's network.

List of Preferred Diabetic Meters	Claims Processing Information
TRUE METRIX AIR	Rx BIN Number: 015251 PCN Number: PRX2000
TRUE METRIX Meter	Identification Number: HB224289445 Group Number: TRUEPORT22

If you have any questions, please contact the Superior Pharmacy department, Monday – Friday from 8 a.m. – 6 p.m., at 1-800-218-7453, ext. 22080.
