STAR Health 3-in-30 Services

3 IN 30

A COMPREHENSIVE APPROACH TO BETTER CARE FOR CHILDREN

3-Day Initial Medical Exam

In 3 business days, children entering DFPS care must see a doctor to be checked for injuries or illnesses and get any treatments they need.

CANS Assessment

In 30 days, children (ages 3-17) must get a CANS assessment. The CANS is a comprehensive trauma-informed behavioral health evaluation. It gathers information about the strengths and needs of the child and helps in planning services that will help the child and family reach their goals.

Texas Health Steps Medical Check-Up

In 30 days, children must see a doctor for a complete check-up with lab work.

This makes sure:

- We address medical issues early.
- Kids are growing and developing as expected.
- Caregivers know how to support strong growth and development.

Trauma-Informed Care Alternative Payment Model

- Effective February 1, 2020, Superior launched a new Alternative Payment Model (APM) for behavioral health therapy providers serving STAR Health members. When a provider uses an approved evidenced-based, trauma-informed care modality to treat trauma-related behavioral health symptoms and issues, they can receive an additional 10% payment to their submitted claim.

Trauma-Informed Care Alternative Payment Model

- There are 5 therapy modalities that will be recognized for this APM:
 - 1. Trauma Focused-Cognitive Behavioral Therapy (TF-CBT)** – Recognized as evidence-based and validated for use with children and adolescents.
 - 2. Eye Movement Desensitization and Reprocessing (EMDR)** – Recognized as evidence-based, validated for use with adults.
 - 3. Cognitive Processing Therapy (CPT)** – Recognized as evidence-based, primarily focused on adults.
 - 4. Prolonged Exposure (PE)** – Recognized as evidence-based, validated for adolescents (PE-A) and adults.
 - 5. Parent Child Interaction Therapy (PCIT)** – Recognized as evidence-based, validated for children ages 2-7.

Child and Adolescent Needs and Strengths Assessment (CANS 2.0)

- Multi-purpose tool developed with the primary objectives of permanency, safety and improved quality of life for youth in foster care.
- Completed by a licensed clinician who is certified to administer the tool.
- Children who are 3-17 years of age at the time of removal are required to have a CANS assessment **within 30 days** of entering foster care.
- Children who turn 3 while in care are required to have a CANS within 30 days of their 3rd birthday.
- CANS 2.0 re-assessments are required annually while an eligible child remains in foster care.
- Certified providers can be reimbursed for completion of the CANS 2.0 assessment.
 - CPT 90791 and modifier TJ
- Additional information can be found online at www.FosterCareTX.com/providers/resources.html.

Telemedicine and Telehealth

What is Telemedicine?

- Telemedicine services are medical services delivered by a physician to a patient at a different physical location. Using telecommunications or information technology, providers are able to see and hear the patient in “real” time.
- Providers must be licensed in Texas or be under the supervision of a provider licensed in Texas. Provider types able to practice telemedicine include:
 - Physicians.
 - Clinical Nurse Specialists.
 - Nurse Practitioners.
 - Physician’s Assistants.
 - Certified Nurse Midwives.
- Providers must use a HIPAA-compliant system for all interactions.

What is Telehealth?

- Telehealth services are behavioral health services provided by licensed or certified providers to a patient at a different physical location other than the health professional using telecommunications or information technology.
- A distant site provider does not need to conduct a physical examination in order for behavioral health services to be rendered.
- The distant site provider is able to conduct a “face-to-face” evaluation via telehealth at an established medical site prior to providing ongoing care. They may also provide treatment for a patient referred by another physician who completed a “face-to-face” evaluation via telemedicine at an established medical site.
 - The Centers for Medicare and Medicaid Services (CMS) define the distant site as the telehealth site where the provider/specialist is seeing the patient at a distance or consulting with a patient’s provider.

What is Telehealth?

- Telehealth is a benefit when provided by these provider types:
 - Licensed Professional Counselor.
 - Licensed Marriage and Family Therapists (LMFT).
 - Licensed Clinical Social Workers (LCSW).
 - Psychologist.
 - Licensed Psychological Associate.
 - Provisionally Licensed Psychologist.
 - Licensed Dietitian.

Covered Benefits of Telemedicine and Telehealth

- Telemedicine and Telehealth may be delivered via:
 - Synchronous audiovisual interaction between the provider and the client in another location using a mobile app or live online video.
 - Asynchronous store and forward technology using:
 - Clinically relevant photographic or video images, including diagnostic images.
 - The patient's medical records (i.e. medical history, lab results and prescriptive histories).
 - Other forms of audiovisual communication that allow the provider to meet the in-person visit standard of care.

Covered Benefits of Telemedicine and Telehealth

- For a list of Current Procedural Terminology (CPT) codes that are covered under telemedicine and telehealth, please see pages 6 and 10 of the TMHP Telecommunication Services Handbook at www.TMHP.com.
 - The codes listed must be billed with modifier 95.
 - Procedure codes that indicate remote in the description do not need modifier 95.
 - Procedure codes for behavioral health services are subject to the same benefits and limitations as in-person visits.
- Patient site providers may be reimbursed for Q3014 in a facility setting; however, it is not a benefit of telehealth services.

Covered Benefits of Telemedicine and Telehealth

- Texas Health Steps checkups are not a benefit under telemedicine or telehealth.
- Distant site providers issuing prescriptions must follow the same standards as would be applied during an in-person visit.
- Reimbursement may not be provided for audio-only interactions, such as telephone consultations, text-only email messages and facsimile transmissions.
 - After the COVID-19 pandemic, Superior will only reimburse for telephone-only services when a HIPAA-compliant platform is used to conduct them.
