Part A	Hospital Insurance 	This portion pays for hospital stays, skilled nursing facilities and hospice stays.	Part C	Medicare Insurance 	Medicare Advantage plans such as HMO's and PPO's. MA plans cover the same services as traditional Medicare and may offer prescription drug coverage (Part D), dental, vision and hearing care.
Part B	Medical Insurance 	This pays for doctors' services – both inpatient and outpatient – as well as lab services, medical equipment and supplies.	Part D	Rx Coverage 	This pays for prescription drugs for home use.

Medicare 101 – Election Period

Annual Election Period (AEP)

October 1 – December 7

Special Election Periods (SEP)

Dates vary;
Rules are based on the specific SEP

- A move out of a plan's service area
- Loss of group insurance

Overview: Allwell Plans

- Allwell is a Medicare Advantage plan.
- We provide quality health care you would expect from a big company, but delivered on a local level.
- Superior's members benefit from strategic care coordination and programs through the strong and collaborative relationships we build with health-care providers and community organizations.
- Allwell is designed to give members:
 - Affordable health-care coverage.
 - Benefits they need to take good care of themselves.
 - Access to doctors, nurses and specialists who work together to help them feel their best.
 - Coverage for prescription drugs.
 - Extra benefits that are not covered by Medicare Part A or Part B (Original Medicare).

Overview: Allwell Plans

- Allwell provides complete continuity of care to Medicare members.
- This includes:
 - Integrated coordination care.
 - Care management.
 - Co-location of behavioral health expertise.
 - Integration of pharmaceutical services with the Pharmacy Benefits Manager (PBM).
 - Additional services specific to the beneficiary needs.
- Superior's approach to care management facilitates the integration of community resources, health education and disease management.
- Allwell promotes members' access to care through a multidisciplinary team, including registered nurses, social workers, pharmacy technicians and behavioral health case managers, all co-located in a single, locally based unit.

Allwell Medicare (HMO)

- Superior offers non-dual HMO plans. These HMO plans cover all Medicare-required services, along with a prescription drug benefit. HMO plans (unlike HMO SNP and MMP) do not require Medicaid to enroll.
 - Most Medicare plans (sometimes referred to as "Part C") include the Part D prescription drug benefit plan. This is Superior's Allwell Medicare (HMO) plan.
 - HMO plans cover the most commonly prescribed drugs. However, each specific Part D plan may determine which drugs are covered. The covered drugs are included in the plan's formulary, or list of drugs:

Allwell.SuperiorHealthPlan.com/drug-pharmacy/formulary.html

Allwell Dual Medicare (HMO SNP)

- Allwell Dual Medicare (HMO SNP) is a plan for individuals with specific conditions or financial needs who are eligible for both Medicare and medical assistance from Texas Medicaid.
- For HMO SNP members, Medicare is always the primary payor and Medicaid is secondary payor.
- HMO SNP members may have both Superior Medicare and Superior Medicaid but not always, so it is important to verify coverage prior to servicing the member.

Please note: You may see members with Superior Medicare where their Medicaid is under another health plan or traditional Fee-For-Service (FFS) Medicaid or vice versa.

Membership

Membership

- Medicare beneficiaries have the option to stay in the original Fee-For-Service Medicare plan or choose a Medicare Advantage Plan, such as Allwell from Superior HealthPlan.
- Allwell members may change Primary Care Providers (PCPs) at any time. Changes take effect on the first day of the month.
- Providers should verify eligibility before every visit by using one of the options below:

Medicare Star Ratings

Medicare Star Ratings

- What are Centers for Medicare and Medicaid Services (CMS) Star Ratings?
 - CMS uses a five-star quality rating system to measure Medicare beneficiaries' experience with their health plans and the health-care system. This rating system applies to Allwell plans that cover both health services and prescription drugs (Allwell Medicare [HMO] and Allwell Dual Medicare [HMO SNP]).
 - The ratings are posted on the CMS consumer website, www.Medicare.gov, to give beneficiaries help in choosing a plan offered in their area. The Star Rating System is designed to promote improvement in quality and recognize primary care providers for demonstrating an increase in performance measures over a defined period of time.

Medicare Star Ratings

- CMS' Star Rating Program is based on measures in 9 different areas:

Part C:

1. Staying healthy: screenings, tests and vaccines.
2. Managing chronic (long-term) conditions.
3. Member experience with the health plan.
4. Member complaints, problems. getting services and improvement in the health plan's performance
5. Health plan customer service.

Part D:

1. Drug plan customer service.
2. Member complaints and changes in the drug plan's performance.
3. Member experience with the drug plan.
4. Drug safety and accuracy of drug pricing.

How Can Providers Improve Star Ratings?

- Continue to encourage patients to obtain preventive screenings annually or when recommended.
- Manage chronic conditions, such as hypertension and diabetes, including medication adherence.
- Continue to talk to patients and document interventions regarding topics such as fall prevention, bladder control and the importance of physical activity and emotional health and wellbeing (HOS).
- Create office practices to identify noncompliant patients at the time of their appointment.
- Identify opportunities to have an impact on patient health and wellbeing.

How Can Providers Improve Star Ratings?

- Submit complete and correct encounters/claims with appropriate codes and properly document medical charts for all members, including availability of medical records for chart abstractions.
- Review the gap in care files that list members with open gaps. These are available on Superior's Secure Provider Portal.
- Review medication and follow up with members within 14 days post hospitalization.
- Make appointments available to patients and reduce wait times (CAHPS).

 - Living Will
 - Health Care Power of Attorney
 - “Do Not Resuscitate” Orders
- Execution of an advance directive must be documented in the member's medical records.
- Providers must educate staff on issues concerning advance directives and must maintain written policies that address a member's right to make decisions their own about medical care.

Regulatory Matters

Medicare Outpatient Observation Notice (MOON)

- Contracted hospitals and critical access hospitals must deliver the Medicare Outpatient Observation Notice (MOON) to any member who receives observation services as an outpatient for more than 24 hours.
- The MOON is a standardized notice to a member informing that the member is an outpatient receiving observation services and not an inpatient of the hospital or critical access hospital and the implications of such status.
- The MOON must be delivered no later than 36 hours after observation services are initiated, or if sooner upon release.
- The Office of Management and Budget (OMB) approved MOON and accompanying form instructions can be found at www.cms.gov/Medicare/Medicare-General-Information/BNl/index.html.

Fraud, Waste and Abuse

Fraud, Waste and Abuse

- Allwell follows the 4 parallel strategies of the Medicare and Medicaid programs to prevent, detect, report and correct fraud, waste and abuse:
 1. Preventing fraud through effective enrollment and education of physicians, providers, suppliers and beneficiaries.
 2. Detection through data analytics and medical records review.
 3. Reporting any identified or investigated violations to the appropriate partners, including contractors, the NBI-MEDIC and federal and state law enforcement agencies, such as the Office of Inspector General (OIG), Federal Bureau of Investigation (FBI), Department of Justice (DOJ) and Medicaid Fraud Control Unit (MFCU).
 4. Correcting fraud, waste or abuse by applying fair and firm enforcement policies, such as pre-payment review, retrospective review and corrective action plan.

- Allwell performs front and back-end audits to ensure compliance with billing regulations. Most common errors include:
 - Use of incorrect billing code
 - Not following the service authorization
