I will certainly reach out where appropriate."

Your leadership and forward thinking is beyond inspiring—it's motivating. All the speakers, especially Dr. Corey Waller, have helped me regain optimism about the future of our beleaguered health care system in the United States.

Bravo. Encore!"

Looking forward to continuing..."

"Just wanted to thank you for the invitation to the Summit and the learning opportunity it was for all of us.

If you need any help with ideas when it comes to working with chronic pain patients from a BH perspective, please let me know. I have set up 3 integrated programs in pain clinics over the past 15 years, one that ran for 10 years and one that is still running. I understand the population pretty well."

"Thank you so much for inviting me to the conference. I was able to make several critical connections. One of those, "What if I had not attended this meeting, what would I have done?" type feelings, when I left.

Thanks so much!"

"Congrats to you on an EXCELLENT program this weekend!! High impact, really great."

“Just wanted to let you know how much I enjoyed going to the pain management and substance abuse symposium. It was very informative and interesting!

One thing, out of many, that I found fascinating, is that Yoga therapy is different than yoga practice. I'd really love to learn more about that type of therapy as it seems to have many, many applications.

I can't wait to see where this initiative takes us. Very exciting!”

“I wanted to say thank you for inviting me to participate in the Superior conference. We are going to continue working with the contracting team to see if we can become providers and I hope that we have some more chances to work together. Please do include me if I can be of service in helping get the ECHO project standing up.”

“I had an outstanding time – one of the most valuable meetings I have ever attended.”
