Quick Reference Guide for Ordering Physicians

Effective September 1, 2012

Superior HealthPlan has selected National Imaging Associates, Inc. (NIA) to implement a radiology benefit management program for outpatient advanced imaging services. This program is consistent with industry-wide efforts to both ensure clinically appropriate care and manage the increasing utilization of these services.

NIA will manage the outpatient imaging services listed below through Superior HealthPlan's existing contractual relationships.

The ordering physician is responsible for obtaining a prior authorization for advanced imaging services. It is the responsibility of the rendering facility to ensure that prior authorization is obtained. As the ordering physician of advanced diagnostic services, it is essential that you develop a process to ensure that the appropriate authorization number(s) have been obtained. Payment will be denied for procedures performed without a necessary authorization, and the member cannot be balance-billed for such procedures.
