

## Disease Management (DM) Programs

Medicaid, CHIP, STAR+PLUS MMP and Wellcare By Allwell

Disease management is defined as a system of coordinated health-care interventions and communications for populations with conditions in which patient self-care efforts are significant. Disease management for chronic medical and behavioral health conditions is available to help Superior HealthPlan Medicaid (STAR, STAR Health, STAR Kids, STAR+PLUS), CHIP, STAR+PLUS Medicare-Medicaid Plan (MMP) and Wellcare By Allwell (HMO and HMO SNP) members. Superior's health coaches coordinate with both the member and their providers to focus on disease-specific conditions (as listed in the table below).

Population Health Clinical Operations (PHCO) – Centene Shared Services	CHIP	STAR	STAR Health	STAR Kids	STAR+PLUS	MMP	Wellcare
Asthma	√	√	√	√	√	√	√
Chronic Obstruction Pulmonary Disease (COPD)					√	√	√
Diabetes	√	√			√	√	√
Heart Disease Coronary Artery Disease (CAD)					√	√	√
Heart Failure (HF)					√	√	√
Puff Free Pregnancy (PFP)			√	√	√	√	
Superior Disease Management Programs	CHIP	STAR	STAR Health	STAR Kids	STAR+PLUS	MMP	Wellcare
