

# Antipsychotics Clinical Edit Criteria

## Drug/Drug Class

### Antipsychotics

Superior HealthPlan follows the guidance of the Texas Vendor Drug Program (VDP) for all clinical edit criteria. This clinical edit criteria applies to all Superior HealthPlan STAR, STAR Health, STAR Kids, STAR+PLUS and CHIP members. Superior has adjusted the clinical criteria to ease the prior authorization process regarding this clinical edit. Step 6 of the criteria that checks for 1 claim for an antipsychotic in the last 90 days has been removed. Step 13 of the criteria that checks for 2 or more active claims for different antipsychotic agents in the last 90 days has been removed. For all products (except Lybalvi and Rexulti), steps 9 and 11 are adjusted to approve for 365 days if answered “Yes” rather than “Go to step #13”. Adjusted criteria steps are outlined/highlighted in yellow. Lybalvi has been set to follow a separate criteria logic.

The original clinical edit can be referenced at the VDP website located at:
