Clinical Policy: Enteral Nutrition

Reference Number: TX.CP.MP.550

Last Review Date: 12/19

See Important Reminder at the end of this policy for important regulatory and legal information.

Description
Enteral nutritional products are those food products that are included in an enteral treatment protocol. They serve as a therapeutic agent for health maintenance and are required to treat an identified medical condition. Nutritional supplies and related equipment may also be a covered benefit.

This policy applies to the following products: STAR, STAR+PLUS, STAR Health, STAR Kids, and CHIP. For STAR+PLUS Dual and STAR+PLUS Dual Waiver members, services and/or adaptive aids/medical supplies are only a covered benefit after they have exhausted any third-party resources, including Medicare.

Policy/Criteria
It is the policy of Superior HealthPlan (SHP) that enteral nutrition products, supplies, and equipment are medically necessary when the following criteria under sections I, II, or III are met:

I. Members 21 Years of Age and Older:
   A. Enteral Formula
      1. Enteral formula is the member’s sole or primary source of nutrition. (An enteral tube feeding is considered the primary source of nutrition when it comprises more than 70 percent of the caloric intake needed to maintain the member’s weight.)
      2. Prior authorization for enteral formula may be given for up to twelve months.
      3. Prior authorization may be recertified with documentation supporting ongoing medical necessity for the enteral formula requested.

      NOTE: Enteral formulas consisting of semi-synthetic intact protein or protein isolates (HCPCS codes B4150 and B4152) are appropriate for the majority of adult members who require enteral nutrition.

II. Members Under 21 Years of Age:
   A. Enteral Formula
      1. Receive all or part of their nutritional intake through a tube; or
      2. Have a metabolic disorder that requires specialized formula; or
      3. For members who do not receive formula through a tube and do not have a metabolic disorder, the following documentation must be submitted and the request sent to a medical director for review:
         a. The underlying diagnosis or condition that results in the requirement for a nutritional product.
         b. The member’s overall health status.
CLINICAL POLICY
Enteral Nutrition

c. Height and weight.
d. Why the member cannot be maintained on an age-appropriate diet.
e. Other formulas tried and why they did not meet the member’s needs
f. Total caloric intake prescribed by the physician.

B. Nutritional Pudding Products
   1. Documented oropharyngeal motor dysfunction; and
   2. Receive greater than 50 percent of their daily caloric intake from a nutritional pudding product.

C. Electrolyte Replacement Products
   1. Underlying acute or chronic medical diagnosis or conditions that requires the replacement of fluid and electrolyte losses; or
   2. Mild-to-moderate dehydration due to the persistent mild to moderate diarrhea or vomiting.

NOTE: Electrolyte replacement products are not medically necessary for the following indications:
   • Intractable vomiting,
   • Adynamic ileus,
   • Intestinal obstruction or perforated bowel,
   • Anuria, oliguria, or impaired homeostatic mechanism, or
   • Severe, continuing diarrhea, when intended for use as the sole therapy.

III. Members of ALL Ages:
A. Food Thickener
   Food thickener may be considered for members with a swallowing disorder.

B. Nasogastric, Gastrostomy, or Jejunostomy Feeding Tubes
   Additional feeding tubes requested over-the-allowable limit require prior authorization and are medically necessary if the submitted documentation supports medical necessity, such as infection at gastrostomy site, leakage, or occlusion. Over-the-allowable limit is as follows:
   1. B4088 two (2) per rolling year
   2. B9998 with modifier U2 two (2) per rolling year

C. Enteral Feeding Pumps
   1. Gravity or syringe feedings are not medically indicated, or
   2. The member requires an administration rate of less than 100 ml. per hr., or
   3. The member requires night-time feedings, or
   4. The member has one of the following conditions:
      a. Reflux and/or aspiration,
      b. Severe diarrhea,
Clinical Policy

Enteral Nutrition

c. Dumping syndrome,
d. Blood glucose fluctuations,
e. Circulatory overload.

D. Backpack/Carrying Case
1. The member requires enteral feedings that last more than eight continuous hours, or feeding intervals that are less than the time that the member must be away from home to attend school or work, or to participate in extensive, physician-ordered outpatient therapies or to attend frequent, multiple medical appointments, and
2. The member is ambulatory or uses a wheelchair that will not support the use of a portable pump by other means, such as an intravenous (IV) pole, and
3. The portable enteral feeding pump is member-owned.

Note: Providers should utilize HCPCS code B9998 for the backpack/carrying case for a portable enteral feeding pump.

E. Other Enteral Supplies
1. Additional enteral feeding supply kits beyond the stated benefit limitation may be considered for prior authorization on a case-by-case basis with documentation of medical necessity. The benefit limitation is as follows:
   a. B9998 with modifier U3 four (4) per month
   b. B4034 up to 31 per month
   c. B4035 up to 31 per month

2. Related supplies and equipment for members who require nutritional products may be considered for prior authorization when medical necessity is documented for each item requested.

Note: Procedure code B4034 will not be authorized for use in place of procedure code A4322 for irrigation syringes when they are not part of a bolus administration kit.

Gravity bags and pump nutritional containers are included in the feeding supply kits and will not be prior authorized separately.

IV. The following enteral nutrition supplies are non-covered services per Texas Medicaid:
   A. Nutritional products traditionally used for infant feeding,
   B. Nutritional products for the primary diagnosis of failure to thrive, failure to gain weight, or lack of growth. The underlying medical etiology of these conditions must be documented.
   C. Nutritional bars.
   D. Nutritional products for members who could be sustained on an age-appropriate diet.

## Reviews, Revisions, and Approvals

| Updated Purpose and included statement regarding Star Plus Waiver and Star Plus Dual Waiver; updated policy by adding general and specific criteria, adding statement that all enteral nutrition product, supplies and equipment requires prior authorization, updated Medicaid allowable table, added repair and replacement criteria; updated authorization protocol and work process; attached ARQ DME list with benefit limitations; updated references. Updated signatories. | 03/14 | 03/14 |
| Removed work process and imbedded in attachment section. Added policy to reference list. | 02/15 | 02/15 |
| Removed age requirement for enteral nutrition. Defined what is considered primary source of nutrition. Added specifications on pediatric formula requirement for members under 21. Protocol Physician signature requirement to include name. Removed attached ARQ Spreadsheet. Updated references. | 03/15 | 03/15 |
| Regulatory updates. Removed work process attachment. Updated signatories. | 03/16 | 03/16 |
| STAR Kids added to products. | 08/16 | 08/16 |
| Removed B9000 and added B9998 with modifier U4 (2 per rolling year). Grammatical edits. Updated references. | 03/17 | 03/17 |
| Significant rewrite of policy. Prior authorization criteria updated to align with Texas Medicaid criteria. | 06/17 | 06/17 |
| Annual Review. Updated references and signatories. Deleted revision history prior to 2014 | 07/18 | 07/18 |
| Updated to new template from TX.UM.10.50 (TX.CP.MP.550 nomenclature implementation 09/14/19). Updated references. Removed prior authorization work process information regarding six month authorization period and supporting documentation for recertification. | 07/19 | 07/19 |
| Added notes regarding PA after allowable limit for feeding tubes and other enteral supplies, with corresponding codes. | 12/19 | 12/19 |

**Important Reminder**

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. “Health Plan” means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan’s affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan
Enteral Nutrition

retains the right to change, amend or withdraw this clinical policy, and additional clinical
policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is
not intended to dictate to providers how to practice medicine. Providers are expected to exercise
professional medical judgment in providing the most appropriate care, and are solely responsible
for the medical advice and treatment of members. This clinical policy is not intended to
recommend treatment for members. Members should consult with their treating physician in
connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent
judgment and over whom the Health Plan has no control or right of control. Providers are not
agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and
distribution of this clinical policy or any information contained herein are strictly prohibited.
Providers, members and their representatives are bound to the terms and conditions expressed
herein through the terms of their contracts. Where no such contract exists, providers, members
and their representatives agree to be bound by such terms and conditions by providing services to
members and/or submitting claims for payment for such services.

Note: For Medicaid members, when state Medicaid coverage provisions conflict with the
coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence.
Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical
policy.

Note: For Medicare members, to ensure consistency with the Medicare National Coverage
Determinations (NCD) and Local Coverage Determinations (LCD), all applicable NCDs, LCDs,
and Medicare Coverage Articles should be reviewed prior to applying the criteria set forth in this
